CUSTOMER SERVICE

 ENVIRONMENTALLY SOUND

At TechniSoil, we pride ourselves on developing innovative and environmentally friendly products for residential, commercial, and industrial applications. Our products are safe for pets, wildlife, and landscaping.

 MADE IN THE USA

All TechniSoil products are proudly manufactured in the USA, and available throughout North America.

 DIY FRIENDLY

Industrial grade, ready-to-use TechniSoil brand products are ideal for the experienced Contractor and the Do-It-Yourself Weekend Warrior. TechniSoil University makes it easy to become an expert in any of our products online.

 MANUFACTURER SUPPORT

Our friendly staff is available to offer complete sales, technical, and product support. 24/7 support is also available online at TechniSoil.com or any of our social media channels.

## YOUR HOME IS MORE THAN YOUR HOUSE

In 2008 we saw the opportunity to help innovate the landscape and hardscape markets. The construction slowdown had created a new class of DIYers. Home renovation projects became more 'personalized'. TechniSoil saw the need for easy-to-use and practical products to help beautify landscape and Hardscape projects, whether a homeowner, a school, business or a public works project. No project is too small or too large.

Since launching the 'Original' Pathway Stabilizer in 2009, we have continued to develop and manufacture a wide array of complimentary products for our dealer network and 'our' customers. As we continue to listen, learn and grow our product line, we will always strive to help the end user gain knowledge, skill and confidence.

As we launch our 9th product catalog, we are also introducing a brand new website to make the customer experience concise and educational.

Thanks to all our loyal supporters throughout the years, we couldn't do it without you!

All the best,

Sean Weaver, President

# G3

## **G3 - PATHWAY STABILIZER** **THE ORIGINAL 'PATHWAY STABILIZER'!**

**The perfect solution for Residential Pathways, Patios, Fire Pits, and Landscaping**

**G3 - Pathway Stabilizer** is an easy-to-use liquid polymer stabilizer for natural pavement.  
**G3 PS** works best with 1/4" and 3/8" decomposed granite (DG) and crushed stone.  
It provides stability, reduces dust, and prevents tracking of loose materials for *residential* applications.  
**G3 PS** is environmentally friendly, VOC-free, and safe for use around people, animals, and landscaping.

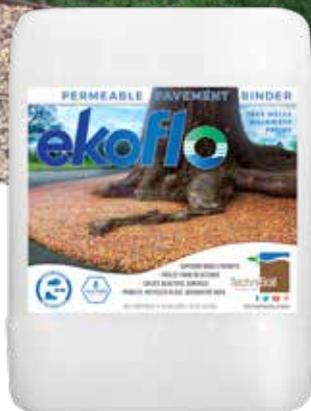

## **G3 - COMMERCIAL SURFACE** **THE HEAVY-DUTY STABILIZER FOR COMMERCIAL APPLICATIONS**

**Corporate Campuses- Educational Institutions- Public Parks**

**G3 - Commercial Surface** is the 'Heavy-use' option to stabilize natural pavement surfaces.  
**G3 CS** also works best with 1/4" and 3/8" decomposed granite (DG) and crushed stone.  
**G3 CS** offers a stronger, pliable and abrasion-resistant surface for commercial and heavier used surfaces.  
**G3 CS** works on similar applications as G3 PS, but also for event parking, secondary driving surfaces, and much more.  
**G3 CS** is also environmentally friendly, VOC-free, and safe for use around people, animals, and landscaping.

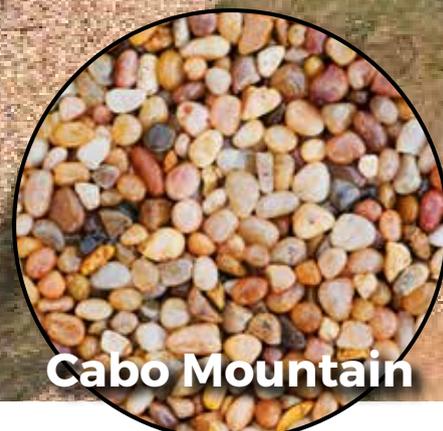

## EKOFLO PERMEABLE PEBBLE BINDER

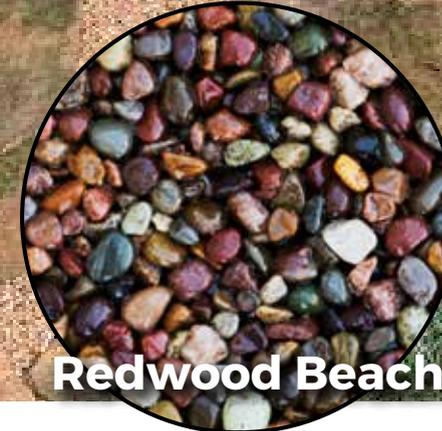

**THE ALL-WEATHER, PERMEABLE SOLUTION FOR:  
PATHWAYS, PATIOS, FIRE-PITS, BORDERS, TREE-WELLS**

**Water Permeable- UV Stable, Strong in All Climates**

**EkoFlo** is a permeable pebble binder designed for use with 'water-washed' (round) pebbles. **EkoFlo**-treated pebbles create stunning walkways, patios, paving joints, and tree wells. **EkoFlo** provides a strong bond for residential and commercial foot traffic applications while allowing water percolation; to attain on-site water retention and storm-water management. **EkoFlo** is UV-Stable, and withstands freeze/thaw, extreme temperatures, maintaining hardness in **ALL** weather conditions. **EkoFlo** is easy-to-mix and trowels into place easily to form a smooth, beautiful, unique surface.

**Cabo Mountain**

**Redwood Beach**

**Trinity Creek**

TechniSoil Global offers three 'certified pebbles' to use with **EkoFlo** Binder:

- Cabo Mountain**
- Redwood Beach**
- Trinity Creek**

Our certified pebbles are available in 50lb bags and super sacks.  
(A 50lb bag covers approx. 5f2 @ 1.5" thickness)

Most water-washed, rounded (semi-rounded) material can be used with **EkoFlo**, however it works best with pre-washed, bagged, or 'super-sacked' pebbles.

Bulk materials, like pea gravel, work as well, but these materials will require to be cleaned of dust/sdiment before mixing with **EkoFlo** Bbinder.

**EkoFlo** binder can also be used with recycled glass!

# nano Pave

H A R D S C A P E & M A S O N R Y

H A R D S C A P E & M A S O N R Y

## **NANOPAVE JOINT STABILIZER & SEALER**

### **THE WIDE JOINT STABILIZATION SPECIALIST!**

#### **FLAGSTONE-CONCRETE-PAVERS-BRICK- STEPPING STONES**

**NanoPave [JSS] Joint Stabilizer and Sealer** is a *2-1 advanced technology* for joint stabilization and sealing.

**NanoPave JSS** is perfect for walkways and patios built with concrete pavers, natural stone, bricks, etc.

**NanoPave JSS** works on joints up to 4" wide, perfect for flagstone, steppingstones and any **WIDE** joint.

**NanoPave JSS** is a strong, cost-effective option to polymeric sand, while sealing the surface in one easy-to-apply process.

**NanoPave JSS** is fast curing and available in two sheens: **Natural Look or Enhanced Finish.**

## NANOPAVE HARDSCAPE SEALER

### Advanced Nano-Sealant Technology

NanoPave Hardscape Sealer offers consistent and durable hardscape sealing. NanoPave Hardscape Sealer is most commonly used on paver/stone/brick/concrete patios and walkways. NanoPave Hardscape Sealer is a water-based, VOC-free formulation. NanoPave Hardscape Sealer is available in two sheens, 'Natural-Look' and 'Enhanced-Look.' NanoPave Hardscape Sealer is quick and easy to apply and maintain. NanoPave Hardscape Sealer nano-polymer technology is 'Eco-safe, non-hazardous and safe to apply indoors or around sensitive landscaping and planter beds.

Gorilla Hair Mulch

Redwood & Cypress Mulch

Pine Straw

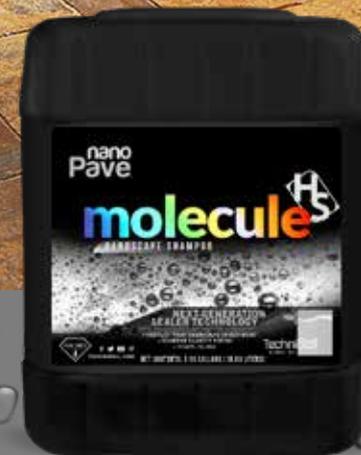

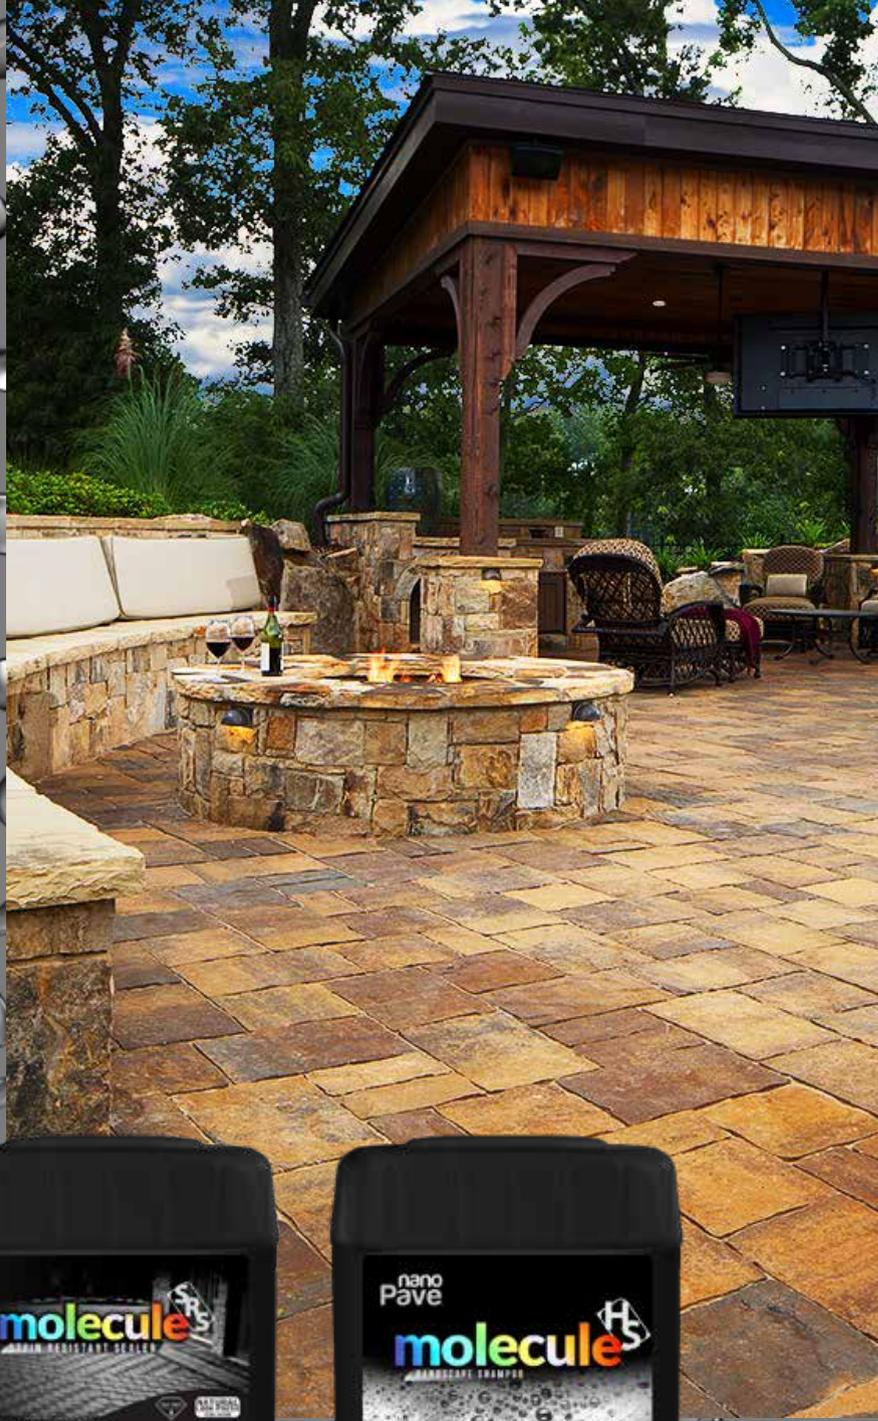

## BARKBINDER

### KEEP YOUR MULCH IN PLACE!

Reduces WIND and WATER Erosion

**ENVIRONMENTALLY SAFE- REDUCE MAINTENANCE**  
**BarkBinder** topically applied liquid stabilizer acts like 'hairspray' for shredded bark, mulch ground cover, pine straw, and more.  
**BarkBinder** concentrate dilutes with water, providing for an easy spray-on application process that is environmentally safe for use around people, animals, and landscaping.  
**BarkBinder** reduces water and wind erosion, while allowing 95% water and oxygen transfer to the soil and plant growth below, such as bulbs or perennials.  
**BarkBinder** also works as a sealant to protect and retain the 'color' of your bark/mulch.

# molecule

## MOLECULE STAIN RESISTANT SEALER TECHNOLOGY

### OIL-WATER-CHEMICAL STAIN RESISTANT

Driveways- Outdoor Dining - Entertainment- Public Parks

**Molecule** sealer products represents next-generation, STAIN RESISTANT technology. **Molecule** offers premium hardscape protection from water, oil and chemical stains. **Molecule** is a penetrates the surface to provide robust 'water-beading', while being 100% breathable. **Molecule** keeps the 'bad stains' off the surface, without trapping sub-surface staining. **Molecule** products are VOC-free, ready-to-use out of the bottle, and easy to apply.

## MOLECULE STAIN RESISTANT SEALER

### PREMIUM STAIN PROTECTION- ALLEVIATE TIRE-TRACKING- REDUCE MAINTENANCE

**Molecule[SRS] Stain Resistant Sealer** is specifically designed for hardscape and vertical surface sealing. **Molecule SRS** is perfect for driveways, restaurant patios, pool decks, entertainment areas and any heavy-use surface. **Molecule SRS** can be used on; Concrete Pavers, Brick, Natural Stone, Tile, Poured Concrete. **Molecule SRS** also works on vertical masonry to reduce water staining and dirt on surfaces such as; decorative concrete, brick, natural and artificial stone, stucco and CMU. **Molecule SRS** reduces staining from vehicle tires, debris, and most liquids while limiting freeze-thaw damage in cold weather climates and prevents color fading from UV.

## MOLECULE HARDSCAPE SHAMPOO

### RESTORE OLD AND FADED PAVING- BRING YOUR PAVEMENT BACK TO LIFE

**Molecule [HS] Hardscape Shampoo** maintains and extends the life of concrete, brick and stone paving. **Molecule HS** helps restore the original vibrancy of old, weather-worn and unsealed paving. **Molecule HS** is a simple 'wash and wax' application-style process, which cleans adds a layer of SRS protection to your hardscape investment. **Molecule HS** is eco-friendly, effective and easy to use.

**TECHNISOIL GROUND COVER STABILIZER**

**'KEEP YOUR NATURAL LOOK AND 'TEXTURE'...LOCKED IN'**

Looking at alternatives to high water use landscaping, such as Grass Lawns? Perhaps you want to alleviate the cost and care of traditional lawns. Many States and Municipalities are now incentivizing the use of LOW-WATER LAWNS and DROUGHT-RESISTANT LANDSCAPING!

**Ground Cover Stabilizer** helps maintain the beauty and lower the maintenance of: XERISCAPING NATIVE Landscapes NATURAL Surfaces.

Preserve your natural surface texture is simple with **Ground Cover Stabilizer!**

**REDUCE WATER USE- REDUCE MAINTENANCE- ECO-SAFE**

Works with a WIDE Variety of crushed stone mixes and ground cover:

**Decomposed Granite, Crushed Stone Mixes, and Blended Ground Cover.**

**LIQUID WEED FABRIC**

**"It's easy to use and works great"**

**HOW DO YOU AVOID WEEDS?**  
Using harmful chemicals or ineffective 'Synthetic' WEED FABRIC?

**We have a solution!**  
**LIQUID WEED FABRIC**  
-EASY TO USE -EASY TO MAINTAIN -LONG LASTING

- Where can it be used?**
- Under Decorative Rock
  - Below your Landscape MULCH
  - Subbase for SYNTHETIC TURF
  - Exposed dirt surfaces
  - **ANY AREA WHERE WEEDS ARE AN ISSUE!**

- \*GREATLY REDUCES WEED GROWTH
- \*CUT DOWN ON YARD MAINTENANCE
- \*ALLEVIATE PESTS and FIRE HAZARDS
- \*LONG LASTING and EASY TO MAINTAIN

## DUSTCUBE

### From Dust Abatement to Event Parking

Get better air quality and save water with **DustCube** from TechniSoil.

**DustCube** is 250 gallons of ready to-use, environmentally safe, liquid polymer emulsion that provides seasonal dust control by adhering small dust particles to larger particles, preventing them from becoming an airborne irritant.

**DustCube** treats up to a 5000 sf of Dirt-Base rock-Decomposed Granite.

**DustCube** is designed to offer dust abatement to not trafficked surfaces such as: Unused dirt lots, Undeveloped construction sites, Fields and Farms

**DustCube MAX** is a cost-effective soil and crushed stone stabilizer for large-scale surfaces.

**DustCube MAX** offers dust control, but also surface solidification, creating a hard surface.

**DustCube MAX** works best with a structural 'road base', but also with crushed stone mixes, soil and in-situ material in certain applications.

**DustCube MAX** is perfect for: Temporary event parking, RV storage yards, Secondary driving and parking, Public Park trails, and Education and Business commons.

\*As with all of our products, **DustCube MAX** is ECO-Friendly

## KURO SLATE

**"It is more than a ground cover or mulch"**

**KURO SLATE** helps retain moisture...reduce weed growth...longer lasting than wood mulch  
Kuro Slate is offered in 1 inch ( + or - ) flat pieces.

**Kuro Slate** offers a **dynamic and beautiful** accent to a wide array of applications:  
Modern.....Rustic.....Tree Wells.....Gardens.....Borders.....Landscaping

It can be used in its natural state or enhance the color and shine with  
**NANOPAVE HARDSCAPE ENHANCED SEALER!**

# CUSTOMER-SUPPORT, FROM THE TOP DOWN

## TECHNISOIL GLOBAL, INC.

At TechniSoil Global, Inc., we strive to create the highest quality hardscape and landscape products for home, commercial, and recreational areas. To that end, we develop products that solve problems. Customer service and Technical support is the core of our customer's success. A successful project is bound by not only a good product, but even 'better' product knowledge. Through offering videos, install guides, and FAQs, our goal is to ensure the customer's project needs are met and inquiries are answered promptly. Listening to, and working with our customers is precisely what drives our innovation and commitment to manufacturing easy-to-use and quality products. Recently, we launched 'TechniSoil University', a free online program designed to be a user-friendly way to increase product knowledge. TechniSoil University is not just for our Authorized Dealers, but contractors and homeowners as well!

### HOMEOWNERS

We designed each of our products with some simple goals; make the products easy-to-use, make them from the highest quality components, make them 'eco-friendly' and strive to make the products better. The same training, educational resources, and support for our dealers, architects and contractors, is available to DIYers. No project is too small or inexperienced a deterrent, our product lines are designed for your 'average' weekend warrior to attain contractor-quality results. Customer/Technical Support is here to assure your questions are answered and your project is successful; knowledge is key to ultimate customer satisfaction.

### TECHNISOIL UNIVERSITY

*TECHNISOIL UNIVERSITY is now a PERSONALIZED education experience!* Learn the 'Tools of the Trade' and from THE PROFESSOR. Are you a contractor? Work in landscaping? A TechniSoil Dealer? A serious DIYer? TechniSoil University 'Holds Class' every Wednesday. The classes are personalized, detailed and limited to 4 'students' per class.

#### 2 Options:

- 10am (PT) A personalized class for TechniSoil Dealer team members and Contractors. CUSTOMIZE the class to YOUR SPECIFIC INTERESTS!
- 11am (PT) A class that will change from week to week and concentrate on a Specific TechniSoil product or installation process. Learn more about such products as PATHWAY STABILIZER, EKO FLO and MOLECULE. SIGN UP and STAY connected! Contact your TechniSoil rep for more info.

### AUTHORIZED DEALERS

Authorized TechniSoil brand dealers are the connecting point for the customer. To help promote and demonstrate the use of TechniSoil products, we offer to our dealers a vast array of product information, product display units with installation videos, informational brochures, and product samples.

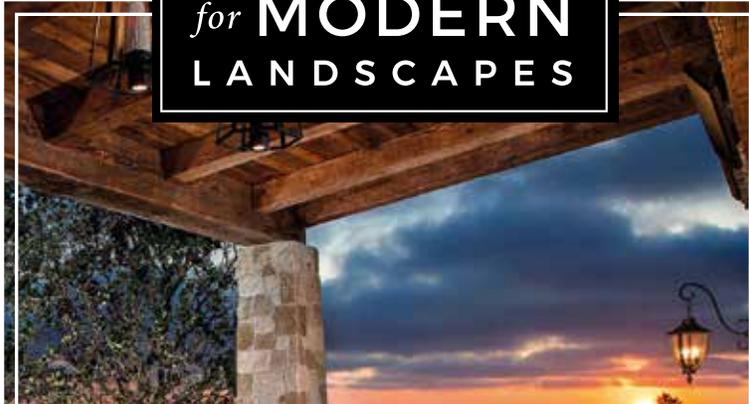

Our newly designed website provides a dealer locator, installation guides, installation videos, product calculators, brochures, FAQ pages, SDS, product blogs, Spanish translation and more...
